It is much to be hoped that the ghastly story of the deep told in this morning's dispatches may prove untrue. It is rare that there is such wholesale loss of life in the track of the trans-At lantic steamers.

Some editors who are finding fault with Mr. Whitelaw Reid for accepting the mission to France, would have had their grips packed before the commission was made out if they had had an intimation that the thing was coming their way.

He is a plucky fighter, and is story is well known to the commission and to every Congressional committee which he could induce to give him a hearing. In appearance he is about six feet tall, well proportioned and of a ford complexion. He has the open countenance and genial manners of the typical Western man.

While the line should not be drawn against every man who has ever held office, there is great wisdom in the principle laid down by the President.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it is a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced at incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Ohenoy & Co., Toledo, Ohlo, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly upon the blood and mucus surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address F. J.
